COUNCIL DIVIDES ON THE COP PROBLEM

The town council at the recent meeting sat until nearly 11:30 o'clock passed accounts totalling over \$2600.00, reduced the police force to one man, decided to grant the request of property owners in the block between Third and Fourth streets for a gasolitic pavement, decided to fund by laws to raise \$10,000 to liquidate the floating debt on the electric light plant; to raise a sum to be estimated to extend the water mains and gave a by-law its introduction prohibiting the depositing of manure and other refuse in the lanes and alleys.

The most interest from the stand point of a scrap entered in the proposal to re-organize the police force. With reference to the new money by-laws it was decided to submit them at once and withhold the sale until the market is favorable. The fact that the by-laws are approved will give the town the necessary standing at the bank to go ahead and finish all work. So far as the ten thousand for electric light is concerned the rate-payers are simply forced to pass it because the credit of the town is pledged for that amount and a decidedly interesting situation might arise if the money was not paid. As to the extension of the water mains it is a question of the generosity of the people. The town has installed a water service. Quite a number have their property connected. Others have not owing to the lack of mains. Are those who live the water going to refuse it to those who have not? That's the whole question in a nut shell.

The accounts passed were as follows:
Town officers, wages.....\$ 255.62
Town officers, monthly salaries.....820.00
G. Simpson, office account.....36.45
McCallum Coal Co.....22.45
C. E. R. freight.....219.31
Imperial Oil Co.....3.50
Standard Supply Co.....7.90
S. M. Soley.....37.90
C. E. Thilford.....9.75

F. Vanakiver.....7.50
Western Lumber Co.....24.08
McCallum Coal Co.....85.12
Municipal Construction Co., 183.57
North-west Electric Co., 3.40
Canadian Fairbanks.....231.10
Mrs. Harris, nurse.....68.00
J. E. Ardell.....2.50
W. C. Bowen.....23.20
Telephone tolls.....14.00
A. Dunbar.....1.50
Ditch gangs.....275.07
J. A. Butts.....100.00

Among the letters was one from Mr. Ashley of the firm of Parker and Ashley warning the town not to pay Parker \$262.52 due on water connections and on: from Fred Langmuir, solicitor demanding the money in behalf of Parker who claims that Ashley was only a foreman and any claim he has for wages will be recognized.

J. A. Smith who has removed to Macleod asked for remission of one half of his business tax. He said he would be asked to pay in Macleod too and didn't want to pay a double tax. The town solicitor said when a man is once assessed he is liable for the years taxes. The request was refused. J. E. M. Leeds wrote asking for a remission of taxes on the mounted police barracks owing to their being occupied by the government. The opinion was expressed that the exemption only applies when the government owns the building and does not apply to private owners deriving a revenue from rent. A motion was passed favoring the request on condition that the solicitor finds that the barracks are legally exempt.

H. W. McLaws of the firm of Longhead and Bennett wrote saying that certificates had been sent their clients who bought the recent issue of debentures, approving the by-law.

Sanitary Inspector McCallum submitted a report showing that he had inspected all private yards and lanes and found things as good as could be expected in the absence of sewers. He suggested that a system of pits or dry earth closets should be instituted in connection with outhouses and that the refuse be taken away

once or twice a month by some one hired by the town. He found little or no latrine is being paid to the use of disinfectants.

He recommended a by-law prohibiting under penalty the depositing of manure and refuse in the lanes and alleys. He made a special inspection of the Gilmore corral and found it as clean as could be expected when so many cows are kept in so small a place. The air was naturally polluted and he submitted that was a matter for the medical health officer to deal with. The report was referred to the health committee.

Auditor Kinnaird sent in a report showing that the town has assets considerably in advance of liabilities and thought there should be no trouble in getting the necessary money to finance the completion of the public works. He thought the electric light plant should pay its way including running and capital charges but couldn't tell definitely until the end of the year. There would be a deficiency in the water revenue which would have to be met out of the general fund. In these important public works he thought the town had an asset quite equal to any demand that would be made. He recommended that expenditure on the water works be curtailed for this year. He recommended the passing of the necessary debenture by-laws at once so that they could be used for security and could be held for a favorable market. As to the balance of money required to carry on the town he advised a loan with the uncollected taxes as security.

Messrs. T. C. Milnes, J. T. Kingsley, W. Moffat and Sons, G. Simpson, Hong Chung, James Clark Co., W. D. Annable and Mrs. C. Getts, petitioned for a certificate of title to the fee title from Third to Fourth avenue on Railway street and along the new Milnes and Noble block on Fourth avenue. The petition will be granted. The solicitor was instructed to prepare the by-laws to raise the debenture money required at once with a view to an early submission to the people. The committees interested are to have reports ready for the next meeting showing the proposed cost of the extensions of mains required etc.

With Councillor Miller opposing the council decided to repair the band instruments owned by the town and any one using the instruments will give the clerk a certificate as a guarantee that they will be returned in good shape. The council thought the band a good asset for the town and felt like encouraging it all that is possible.

By request of Superintendent Perry the council added John Miller's name to the list of those receiving regular monthly salaries. The future of the evening arose over the motion of Mr. Holmes to reduce the police force. He moved that the services of the present day policemen be dispensed with Oct 1st, that the hours of the present night man after that date be from 5 p.m. to 5 a.m.

The following dialogue ensued.
Mr. Holmes—"The night man been giving satisfaction?"
Mr. Holmes—"Yes."
Mr. Miller—"Have you consulted public opinion about it?"
Mr. Holmes—"Yes."
Mr. Miller—"And you still think he has been giving satisfaction?"
Mr. Holmes—"Oh yes."
Mr. Miller—"That's where you and I differ."

The discussion continued for a time when the mayor asked Mr. Holmes to divide his motion and allow the council to express its opinion on the question of the reduction of the staff and then the selection of a man to be dealt with separately. Mr. Holmes did not feel like complying and the mayor said he could not support the motion in the form in which it was presented to council.

The division resulted as follows: Yeas—Holmes, Milnes, Cumming, Nays—Miller, Bowen and the Mayor. The mayor right to vote being called the city solicitor read from the municipal act showing that he had the right to vote on all motions. The motion was then declared lost and the clerk instructed to advertise for applications for the night job. No motion was passed designed to reduce the staff.

Experimenting Cost \$100 \$1.00 Paid for the Cure

Rheumatism Disappeared When the Poisons Were Removed From the System by DR. CHASE'S KIDNEY-LIVER PILLS

Experiments are sometimes necessary and almost always expensive. It is usually wise to let a doctor do the experimenting and profit by their experience.

When it is a matter of regulating the liver, kidneys and bowels and when these organs are clogged, rheumatism, backache, lameness and other pains and aches, experience has proven that Dr. Chase's Kidney and Liver Pills are the most effective treatment available.

They are different from ordinary kidney medicines in that they regulate the liver and bowels, as well as the kidneys, and in this way get at the very source of trouble.

Let others experiment if they will. This letter shows what experimenting has cost and what they have gained with somewhat similar experience.

Mr. James Clarke, Marlston, Sask.

Our Language

"He rendered his part of the programme well," he said to his partner in the music.

"Hark! He snickered over your 'Hark' a week back," she whispered—Buffalo Express.

Dr. Chase's Kidney and Liver Pills

Hands Tied to Prevent Scratching.

Five Doctors Failed to Relieve, but Zan-Buk Tonic Cured.

Mrs. Shue, Levere, of Prescott, North Channel, Ont., tells how Zan-Buk Tonic cured her of a skin disease. Her baby's head and face were so completely covered with sores that she was unable to nurse. The itching and irritation were fearful, and the little one's night was so restless that she could not sleep. The doctor said that she was to keep her hands tied for days to prevent her rubbing and scratching the sores. The doctor treated her in vain, until we had five doctors. The doctor said it was a frightful case of eczema, but none of them did any permanent good. It is a bad disease.

At this time we heard that Zan-Buk Tonic was a good remedy for skin diseases. We had to keep her hands tied for days to prevent her rubbing and scratching the sores. The doctor treated her in vain, until we had five doctors. The doctor said it was a frightful case of eczema, but none of them did any permanent good. It is a bad disease.

Mrs. Holmes, of 30 Gladstone street, Hamilton, is quite as eloquent in her praise. She says: "Zan-Buk Tonic is my boy of boys and eruptions when he was so bad that he had been unable to mix with other children. Zan-Buk is a wonderful preparation, and mothers throughout the land should always have it handy."

Zan-Buk is a wonderful skin skin disease, such as eczema, psoriasis, etc., all druggists and stores at 60 cents a box, or put free reference to Zan-Buk Co., Toronto. Refuse imitations.

A man doesn't mind being abused by his wife if he isn't.

Shiloh's Cure

quickly stops cough, cures cold, soothes throat and lungs. 25 cents.

Getting Ready

Jones (at the telephone)—Hello, Mrs. J. I just called you up to say to you as soon as I get home. I'm going to discharge that check. She's no good. Mrs. Jones—All right, John. By the way, stop at some drug store and get some of those little pills and a package of court plaster. I have plenty of lint and salves—St. Paul Dispensary.

"I don't like to see a woman play for money," said the bridge waltzer.

"You don't? Why do you go to the theatre then?"—Yonkers Statesman.

Very many persons die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. It attacked in the night when I was in a bottle of Dr. J. D. Kellogg's Dysentery Cordial. It can be got at small cost at any drug store or general dealer's, and it will afford relief to every doctor can be called.

"I suppose," began the laughing summer visitor enigmatically "that the wealth in this part of New Hampshire is in the soil."

The native responded, the shining blinks of his smile reflecting.

"I reckon it," he humbly assented. "I don't know anybody hereabouts that ever got any out of it"—Youth's Companion.

WESTMINSTER ARBY.

The Origin of the Old Saying, "Reb-bing Peter to Pay Paul."

The greatest landmark in London is doubtless St. Paul's. Its massive outline, and lofty tower, dominating the quiet river, constitute a characteristic feature and form a picture which has been counted on for centuries and the blur of seemingly endless traffic most visitors take away with them as the prominent impression of the greatest city in the world.

It is more than 600 years older than St. Paul's. Founded in 1003 by the King, Edward the Confessor, it is the oldest church in London. It is the seat of the Bishop of London, and the cathedral of the diocese. It is the largest church in England, and the most magnificent building in the world. It is the seat of the Bishop of London, and the cathedral of the diocese. It is the largest church in England, and the most magnificent building in the world.

For Ladies Only

Lady (anxious by the constant view of the city)—"Poor little dear! Is it a boy or a girl?"

Mother (delighted at the attention)—"A boy."

Lady—Well, perhaps you wouldn't mind getting out of the next station. What's he doing in a ladies' compartment, anyhow?—London Sketch.

Comfort for the Dyspeptic.—There is no ailment so harassing and exhausting as dyspepsia, which arises from an ineffective action of the stomach and liver, and the victim of it is to be pitied. Yet he can find relief in the use of Parment's Vegetable Pills, a preparation that has established itself by years of effective use. These are pills that are widely advertised as the greatest remedy for dyspepsia, and the number of them can rank in value with Parment's.

They are going through a deep work and he had told her to be patient. She was a woman of the kind that would not be hurried. She was a woman of the kind that would not be hurried. She was a woman of the kind that would not be hurried.

Minar's Liniment Cures Burns, Etc.

The story is told of an Irishman who, while walking with his friend, passed a jewelry store where there were a lot of precious stones in the window. "Would you not like to have your pick?" asked Pat. "Not me, pick, but me, me!" said the Irishman.

Lord Methers's Kindness

Lord Tennyson, the late poet laureate, was to relate a story showing the thoughtfulness of Queen Alexandra. She was on a voyage with Mr. Gladstone, and many distinguished people were on board. Translated by a friend at the time, his read, "The Grandmother" on board because the Princess of Wales asked for it. "I read it," said Tennyson, "in the cabin on the ship."

The price set close to me at one side and a young lady like I didn't know on the other. The wind came straight on window, and the princess said, "Put on your hat, my dear."

I said I ought, if possible, to make my hat. She said again, "Oh, put it on!" so I did, and I heard afterwards that the King of Denmark's court fool, who was in the background they really kept a close eye on the married. He may be laureate, but he was not a "barned court" man.

When I was done this prince praised me and I patted the unknown one on the back by way of reward. I presently found that she was the Empress of Russia.

"Had you any talk with the Emperor?"

"Hardly any. He said he couldn't speak English. Perhaps he was disappointed at my putting his wife on the back. His head was up in the cabin ceiling as he walked about below."

Gypsy Wordless Language

To communicate with one another, gypsies use letters—and they use the telephone, too, when necessary—except in the country that is the most Roman, also follows the "pattern" of the telephone.

The gypsies, tracing the footsteps of their friends on the road by the same method employed by his ancient prototype, reading directions where no words are written as clearly as the gypsies do a road sign.

The pattern can be read by the gypsies only in a hidden and secret, although it may be in plain sight, as a signboard is open and public. The pattern may be formed of sticks or stones or grass, picked up in the fashion of the roads in such manner that only a gypsy can read it, and it is up to the gypsies to read it and up to the gypsies to read it.

At one time there was a tax levied on births, a sliding scale being adopted. The child of a duke cost its father \$100 in 1860, while the child of only two shillings on the child of a commoner was charged a tax of one penny.

Birth Taxes in England

The reign of Henry VIII. should have been a good one for the barbers. Men were then taxed for wearing beards and the tax was graduated according to the social standing of the wearer. A sheriff at Canterbury paid three shillings and fourpence for the privilege of wearing whiskers.

Queen Elizabeth was even more dignified. She charged a tax on a beard of over two weeks' growth.

The reign of Henry VIII. should have been a good one for the barbers. Men were then taxed for wearing beards and the tax was graduated according to the social standing of the wearer.

A sheriff at Canterbury paid three shillings and fourpence for the privilege of wearing whiskers. Queen Elizabeth was even more dignified. She charged a tax on a beard of over two weeks' growth.

At one time there was a tax levied on births, a sliding scale being adopted. The child of a duke cost its father \$100 in 1860, while the child of only two shillings on the child of a commoner was charged a tax of one penny.

BADLY ADVISED ACTION

The action of members of the brigade in resigning because Mr. J. R. Edwards was not appointed policeman by the council at the meeting last week was very poor tactics and when the people fully realize how badly the action is to injure the town there will be a reaction. The brigade apparently thinks more of Mr. Edwards than they do of the town which is hurting them. Mr. Edwards has put the town in a poor light with the undeviating. Clareholm has been spending thousands of dollars on a water system, and equipment, and is about in a position to demand a reduction in insurance equal to the increase in taxation at the very least. Just as this stage is reached about comes the frenzied with indignation designed to hit town a serious blow, all because the council did not see fit to reorganize the police force along lines favorable to the brigade. The Review is not opposing Mr. Edwards. He has had experience as a fireman and policeman and doubtless is as well qualified to fill the position as any man in town. He has taken a deep interest in the fire brigade, and while open to the charge, at times, of being overly officious, is a good man. Few of all good men are overly officious at times. There is criticism of the council. The history of the matter in brief is that the council decided to save practically \$10,000 a year by disposing with one policeman. Councilor Holmes measured a resolution reducing the staff fixing the hours and naming Mr. Edwards for the position. There was some opposition to this, Mr. Edwards may have the position of a majority of the council but he has strong opposition, particularly in Councilor Miller. The mayor suggested that Councilor Holmes divide his motion. That is, first move for the reduction of the force and have that principle decided upon by the council one way or the other. The council would unanimously pass such a resolution and thereafter the matter could be decided on in a separate motion. The mayor refused to accept this advice and the mayor said he would have to oppose the motion. He was not not opposing Edwards, but the way in which the matter was brought before council. The vote was three for and two against of the councilors, and the mayor voted with the two making it a tie and consequently an adverse vote. The mayor's request was challenged by Councilor Milnes and the town solicitor who was present turned up the municipal ordinance and ruled that his worship was well within his rights in voting. It was then decided to call for applications for the position, and the job is open with twelve hours work a day, chiefly at night, at \$75 a month, any man in town has the privilege of applying. No man has a divine right to the job. Get your application in by next Friday night.

THE MACLEOD CAMPAIGN

The Calgary Herald says that Mr. Macleod was mentioned in Macleod "Why one of these Liberal councilors has the town, Macleod, as his only candidate."

For it is a damned hard job to move to with the Liberal councilors in, as Macleod from the Hon. editor of the Herald. He wasn't there, but he was directly, or indirectly, in the matter. Macleod was the free choice of the Liberals of Macleod. The convention was presided over by Mr. J. W. McDonald, baronet, and was made up of equally respectable citizens. These men are all in the esteem by the Macleod people who will doubtless see to it that they are simply exempted from the repression aimed at by the Herald. The clever attempt at looking Mr. Macleod up to the people as the exponent of machination in elections is played out. It may take the place of an absence of argument in the opinion of those using it but it doesn't satisfy the electors. Mr. Macleod is quite capable of taking care of himself but the fragility of his name into every contest and the meddling, or blighting, or inflicting has been worked to death in this province. It's about time to displace him with a proposal of a man, one designed to assist the people. So far there hasn't been even a sug-

gestion in the Herald, or in any other paper supporting Mr. Patterson, for that matter.

The Macleod Advertiser says "the dependence is not synonymous with neutrality." The Review agrees. The Review is independent. That is we support the Liberal party on principle reserving the right to hit the party one" when in our opinion the party leaders stray from the beaten track of Liberalism. The Review did so a few months ago and it is to the glory of the Liberal party that the house cleaning was done by the Liberals and not left to the opponents. That didn't please the opponents but it demonstrated that the rank and file of the Liberal party have the necessary moral force to be entrusted with the task of governing.

The Advertiser says the Macleod Liberal convention was made up of a bunch "without credentials." If that is so what better answer could be made to the suggestion that the nomination was undemocratic. Mass meetings are not as a rule packed by machine effort. The primaries with the presence of the machine manipulators, best serves that purpose. Mr. Macleod's nomination was free and spontaneous.

He would be a foolish farmer indeed who concluded that Mr. Patterson is any better friend of the farmer than Mr. Macleod. They are both friends of the farmers and Macleod represents the railway policy which will add dollars to the value of your farm. Vote for Macleod.

Don't listen to any claptrap about farmers candidates. Both men are farmers and both farmers candidates. The whole thing is going the farmer's way so far as candidates are concerned.

Does Macleod approve the Liberal policy of guaranteeing bonds so that the railways may enter that town. That's the thing is going the farmer's way so far as candidates are concerned. Don't wander into the fields of unreasoning partisanship. There's nothing party about it. The duty is to vote for Macleod and railways.

The railways have to build their branch lines from the trunks. The branches are heading South as rapidly as possible. The province is guaranteeing the bonds so they can come South. Macleod wants a branch of all railways. Send the man to Edmonton who can have a say in the matter other than criticizing the government from an opposition bench. Vote for Macleod.

The government would be perfectly justified in interpreting the election of Mr. Patterson as a slap at the expressed policy of guaranteeing the bonds and incidentally more roads.

Why does the Calgary Herald seek to interfere with the election of a representative from Macleod and in the same editorial sneer at the Clareholm Review. Because the Review is fighting for more railways in Southern Alberta and the Herald is strenuously fighting to elect an opponent of Premier Sitka. That's all.

More railways for Macleod means more railway accommodation for the farmers of the Clareholm and other districts in the South. This is a Southern question. The Calgary Herald doesn't care so long as the roads reach Calgary.

In asking for more railways in the South there is no indignation expressed to the C.P.R. That road has done a splendid work for the South. But the South is big enough for more roads. The issue is plain. We want the N.E. & O. (C.P.R.) and we want other road we can get. Help along by electing Macleod.

Macleod is the exalted railway center of the South. The Liberal railway policy will make it such. Vote for Macleod and enrich the roads.

Mr. Patterson is quite as fine a man as Mr. Macleod but he isn't the representative of quite as good a policy for Macleod riding. Vote for the policy and in doing so it will help make Macleod great. Mr. Macleod represents the policy.

The nomination of Mr. A. J. McArthur for vice-president is tantamount to his election. He will be opposed by an independent Liberal and the Conservatives will not have a man in the field. Mr. McArthur is the province of the substantial man of the prime, gifted with fine business insight and sound judgment. Just the kind of man to help lay the foundation of a new province. He is not a talker, but he is a good thinker and worker.

The Mayor's Voting Privilege

There was some discussion this week as to the right of the mayor to vote. Mr. Holmes motion in reference to the reorganization of the police force. As stated in another column the mayor was supported by the advice of the town solicitor. Here is the law: Sec. 104 of the municipal act reads as follows:

The mayor, or vice, at any meeting of the council may vote with the other members of the council on all questions; and any questions on which there is an equality of votes shall be deemed to be negatived.

It may be claimed that this gives the mayor two votes but a moment's thought will show that such is not the case. For example supposing the mayor had been favorable to Mr. Holmes' motion. He votes on division and makes it a tie. He then would have no right to cast the deciding vote and declare the motion carried. He voted and made it a tie and according to the act the motion was thereby lost. Supposing the motion had been three or all without the mayor and he gave the deciding vote, he would be exercising no greater privilege than he enjoyed the other night. He was entitled to one vote and one only.

Messrs. G. Simpson, J. G. Cumming, T. C. Milnes, Mr. Drollinger, P. Solberg, Tait Hunter and J. F. Reynolds spent the week end at Field and Banff. They went to Field to see a mine which is largely owned by Clareholm interests and made an examination of the ore body at present uncovered. It is apparently a mine rich in copper and silver with traces of lead. Considerable work has been done on it and it is nearly past the stage of speculation. On their return Banff was taken in and some of the visitors who saw the famed resort for the first time were delighted with its beauties.

Mr. C. H. Holmes spent Labor day in Lethbridge.

A. E. Quyle of the Carmangey Sun spent Labor day in town.

Mr. J. F. Miller of the Union Bank was in High River on Monday.

Mr. George Wilson was in Naaton this week on company business.

F. E. Gibson has been appointed local manager of the Crown Insulator yards.

Mrs. J. A. Green of Havre, Montana, is the guest of Mr. and Mrs. Ed. Mc Candlish.

Mr. Art. Miller left on Monday evening for Edmonton where he will attend Alberta college.

Miss Hipkin who has been visiting at the Methodist parsonage left for Edmonton on Tuesday.

Mr. O. J. Wood, manager of the Union Bank at Carlsbad was in town this week enjoying a holiday.

Miss McLaurin of Calgary who had been visiting in town left for High River to visit friends there before returning home.

Mr. Cook manager of the Western Canada lumber yard at Carmangey was in town this week on business with the head office.

A number of the boys went to Naaton Labor day to take part in the athletic field day but the heavy down pour of rain stopped the fun.

Mrs. Delbridge announces her Millinery opening for Saturday next in the new store. Call and see the nice display of the very latest.

Messrs. Grand and Mossy who resigned from the staff of the Bank of Commerce left on Saturday for Vancouver where they will enter business together.

Among those who went to Lethbridge to hear Laurier were Messrs. William Moffatt, George Simpson, B. L. Perry, C. W. Jones, Carl Brunel and others.

According to the Strathmore Standard, Mr. N. Holmes of this town has bought the store and stock of George Lloyd of that town. It is the leading store in Strathmore.

The infant son of Mr. and Mrs. P. A. Olson was buried on Sunday, having passed away from the effects of cholera infantum. The obsequies were conducted by Rev. A. B. Argue.

Mr. Hugh Mix of Ottawa was in town between trains on Saturday calling on the editor of the Review. He was a delegate to the general conference of the Methodist church held at Victoria.

The Misses Simpson announce their Fall millinery opening for Saturday next, Sept. 10th. They will have on show a select range of pattern hats and novelties. The styles this year will please.

The C. P. R. have notified Miles and Noble that the sale of the town sites of Vulcan and Estevan on the Lethbridge, Alderville line will take place on November 12th, in the office of Roberts and Hunt, High River.

Any person seeing stray cattle with the brand H or X - N or H S on them will confer a favor by notifying Price and Walls, Claresholm. These cattle belonged to the H ranch and Shingles herds and have been bought by Price and Walls.

Mr. and Mrs. James McKinney and on Willard, arrived home Tuesday night from a two months stay on their fruit farm at Kelowna, B. C. The season in the Okanagan was an abundant one and the fruit crop is in fine condition.

Mr. John Oliver of Meadow Creek who had a leg amputated the other day is reported to be making splendid progress and is now sure of recovery. The amputation was performed by the Doctors McMillan and Dr. Anderson of Grammon.

The heavy down pour of rain this week was one of the most welcome in years. It rained steadily for hours and saturated thirsty mother earth. The farmers and business men are wearing the smile that won't come off. It means a crop next year.

At a meeting of the fire brigade last Friday night all the members present decided to resign as a protest against the action of the council in releasing Chief Policeman Edwards, who is also a chief of the fire brigade. A written protest conveying the resignation to the council was signed by all the members.

Mrs. Litz, mother of Mrs. Musch, Meadow Creek, died on Sunday last from the effects of pneumonia and was buried on Tuesday in the Claresholm cemetery. The obsequies were conducted by Rev. P. Henderson the service being held in the Presbyterian church.

Mr. T. F. Ross of the Dominion bank has received orders to report at Vancouver where he will enter the bank there as ledger keeper. This is a pleasing promotion and the many friends Mr. Ross made while in Claresholm will be delighted to hear of his advancement.

Labor Day was quietly celebrated in Claresholm. Business houses generally were closed and the down fall of rain was the most pleasant feature of the day. The promise of the harvest next year is already assured. Quite a number went duck shooting and the feathered birds were reduced in numbers.

Mr. W. Glendening, one of the owners of the new townsite of Calgary, over Red Deer on the G. T. P. was in town Tuesday and was the guest of Mayor Frost. He is an old Wollerton boy and son of School Inspector Glendening well known throughout Bruce. Mr. Glendening thinks the new town is a corner.

The charge having been made that the night policeman last winter kept on fires for business men along Railway street the Review investigated and found that the statement was not true. It was particularly stated that he kept on fire in Mr. Walsh's store but a most emphatic denial is given the yarn. "He never put a shovel of coal in my store in his life," asserts Mr. Walsh.

The Edmonton Journal of recent date had the following in reference to the able young Methodist minister in charge on the Meadow Creek mission.

"Rev. Kenneth Kingston, who has been visiting in the city during exhibition, preached in Newwood Methodist church last evening. His sermon was listened to with delight by his many friends in Newwood."

Mr. C. S. Noble was in town Wednesday. He says Noble is growing steadily. The latest additions are a redtail, blacksmith shop and the doubling of the capacity of M. Mc Gregor's store. Mr. Noble has only three hundred bushels of wheat as yet having stacked his grain. It will not average much over ten bushels to the acre. He is delighted with the rain and says everyone can tumble in now with an assurance of success next year.

The heavy rains of the past few days caused a partial washout on the track six miles north, with the result that the mile spread on Wednesday, putting the noon train in the ditch, right side up fortunately and no one was any the worse for the experience. It took several hours for the auxiliary train to come from Milledge and put enough of the train back on the track to allow the passengers and mail to be carried on. The train got under way again about eight o'clock.

The rally service for the Fall and Winter season in connection with the W. M. S. of the Methodist church took place Wednesday afternoon and the down fall of welcome rain. The attendance was fair considering the weather. An interesting program was much enjoyed there being a solo by Mrs. H. P. Oland, reading, Mrs. McKinney and a very instructive paper on the work in West China by Mrs. Argue. Mrs. Quyle presided. The ladies all joined in a hearty welcome home to Mrs. McKinney who has been greatly missed while away.

At a meeting of the Agricultural society on Tuesday afternoon a report was presented showing approximately the financial results for the year. When the government grant is received and all other receipts are in the surplus will be about three hundred dollars. This was regarded as a fine showing and a vote of thanks was cordially extended the management. There was some talk of erecting a building and with it coupled suggestions that it be used for a shooting rink in the winter. J. O. White, E. W. Frost and J. R. Watt were appointed a committee to investigate the question as to the cost of the securing of a site from the Tariff Commission and report at a subsequent meeting. The National bureau having offered to place a pure bred stallion in this district under the auspices of the society. Messrs. J. Robertson, A. E. Hunter and J. R. Watt were appointed a committee to act for the society. Arrangements will be made for an institute meeting this autumn and Deputy Minister Harcourt will be asked to attend.

THE LIQUOR LICENSE ORDINANCE. APPLICATION FOR TRANSFER OF HOTEL LICENSE.

Application has been made by Harry P. Bell and C. J. Cote for consent to the transfer to themselves of

the license granted to C. J. Cote in respect to the Wilton Hotel, situate on lots 11, 12 and 13 in Block 2, Claresholm, Alberta.

If necessary this application will be considered by the Board of License Commissioners at a meeting to be held at Claresholm on Tuesday, October 4th, 1910, at 10 o'clock A.M.

DATED AT EDMONTON this 3rd day of September, 1910.

A. Y. Blain, Acting Deputy Attorney General.

The Bureau Stallion

J. R. Watt has been in correspondence with the secretary of the Canadian National Bureau of Breeding with a view of getting one of the thoroughbred stallions belonging to the Bureau placed in the Claresholm district, and at length the Bureau have consented to send one and the horse arrived on Tuesday night. It may at once be said that the farmers in Claresholm are lucky in getting the very best possible, and the horse has pleased all who have viewed him. Although only two years old he stands almost, if not full, 16 hands and weighs about 1000 lbs. By next spring he will be over three years old and should gain in size and weight. His breeding is the very best. His sire was St. Dory an imported English horse used in the Argentina, and his grand sire was St. Simon who was the greatest thoroughbred sire of modern times being the father of the late King's Derby winner, Persimmon and Diamond Jubilee and also of La Fleche and many famous horses. St. Simon was himself one of the best of race horses and his best performances were the winning of the Prince of Wales two year old Handicap from about 50 horses carrying 134 lbs a crusher for a two year old and as a four year old St. Simon won the Ascot Cup and Goodwood Cup each run over 24 miles and he won each time pulling up by 20 lengths. St. Simon's service fee was \$1500. The Claresholm horse whose name is "Nashvank" has a dam Tillie Vico a good race mare in the States. Nashvank's grand dam on the sire's side was Dorice by Melton (winner of the English Derby) and Dorice was the dam of Spookly one of the greatest race horses ever foaled in America and his skeleton is now in the Metropolitan Museum in New York as an example of bone conformation. The farmers must understand that Nashvank has not been sent here to get race horses but to cross with farmers mares, but particulars will be given by Mr. Watt at the forthcoming Institute Meeting of the Agricultural Society. Messrs. A. E. Hunter, J. R. Watt and J. Robertson have been appointed by the Agricultural Society to superintend it and it is hoped that Mr. F. W. Elliot of New York will consent to care for the horse.

A Good Position

Can be had by ambitious youngmen and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$60 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Vancouver, Cincinnati, O., Portland, Ore., or Memphis, Tenn.

Public Notice

The coal business of the Claresholm Coal Company has been bought by Wm. Moffatt and Sons, who have arranged to put it on a strong basis and give the public efficient service as well as the best coal on the market. They have arranged to handle the Ashcroft coal and have the company's guarantee of a supply sufficient for the Claresholm district. This coal has been introduced here before but it seemed impossible to get a regular supply. Moffatt and Sons have overcome this trouble and have four cars on the road. Now is the time to order your winter supply. The business will be in charge of Mr. Harry B. Tilden which is a guarantee of courteous and satisfactory service. Office opposite Medical Hall. Phone No. 46.

Important Announcement

Having bought the Economy Feed and sales stables and livery and draying business from A. E. Hunter, I respectfully solicit a continuance of the business accorded my predecessor and hope by up-to-date management to win a largely increased patronage.

We will keep the best of road horses and equipment and travellers and towns people requiring a smart livery service are assured of the best in patronizing us.

Farmers are guaranteed the best of attention for their horses at our feed stables and moderate charges.

We will continue the draying business and hope by promptness and courteousness to give the business men the service they have been looking for. The stables will be under expert management and all departments will be right up to the minute.

H. WRIGHT, Owner.

Palace Livery, Feed, and Sale Stable.

Good driving horses and rubber-tired rigs make driving a pleasure; we supply these and horses you can ride.

Try our feed and stable accommodation; we furnish a palace for equines, and are always pleased to accommodate you.

TOURING CAR FOR HIRE Efficient Chauffeur Guaranteed and up to the minute service.

Vanhorn & Hutchison, Props.
